The five units have individual rentable areas from 1,131 to 8,554 square feet of retail area. The building was constructed in 1989. The subject rectangular site consists of 26,972 square feet of eight parcel identification numbers. The subject property is located in Chicago, Jefferson Township, Cook County, Illinois and was classified as class 5-17 (one story commercial building) under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. In support of this argument the appellant submitted an appraisal

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

estimating the subject property had a market value of \$910,000 as of January 1, 2003. The appellant also submitted a copy of the board of review final decision wherein the subject's final assessment of \$384,999 was disclosed. The subject's assessment reflects a market value of approximately \$1,013,155 using the Cook County Real Property Assessment Classification Ordinance level of assessment for class 5A property of 38%. Based on this evidence the appellant requested the subject's assessment be reduced to \$345,800 to reflect the appraised value.

The board of review did not submit its "Board of Review Notes on Appeal" or any evidence in support of its assessed valuation of the subject property.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds the evidence in the record supports a reduction in the subject's assessment.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill. App. 3d 1038 (3<sup>rd</sup> Dist. 2002). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The appellant in this appeal submitted the only evidence of market value in the record. The appellant submitted an appraisal estimating the subject property had a market value of \$910,000 as of January 1, 2003. The board of review did not submit any evidence in support of its assessment of the subject property or to refute the appellant's argument as required by Section 1910.40(a) of the Official Rules of the Property Tax Appeal Board. The Board has examined the information submitted by the appellant and finds that the subject property had a market value of \$910,000 as of January 1, 2003. The Board further finds that since market value has been established the Cook County Real Property Assessment Classification Ordinance level of assessment for class 5A property of 38% shall apply. (86 Ill. Admin. Code 1910.50(c)(3)).

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
